

HAFIZ AZAN AHMED

FRONTEND DEVELOPER

Karachi, Pakistan • +923161122692 • dev.hafizazan@gmail.com,
<https://hafiz-azan-portfolio.vercel.app/> • <https://www.linkedin.com/in/hafiz-azan-ahmed-dev/>

SUMMARY

Results-driven Frontend Developer with expertise in React.js, Next.js, and modern UI frameworks. Skilled in building scalable, high-performance web applications with optimized user experiences. Passionate about clean, maintainable code, API integration, and problem-solving to enhance functionality and performance.

SKILLS

HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux Toolkit, Zustand, React Query, RTK Query, Tailwind CSS, Ant Design, shadcn/ui, GSAP, Framer Motion, Firebase, Git.
(Basic: Vue.js, Vuetify, Nest.js, MongoDB)

WORK EXPERIENCE

Junior App Developer – InnoverSol Karachi, Pakistan

6 Aug 2025 - Present

- Built and optimized React.js & Next.js applications with improved performance and maintainability.
- Integrated Firebase authentication and real-time database features to enhance user engagement and data reliability.
- Implemented efficient state management with Zustand & Redux Toolkit for smoother data flow and scalability.
- Developed responsive and consistent UIs using Ant Design, Tailwind CSS, and MUI, ensuring seamless cross-device experience.
- Collaborated in code reviews and feature planning to maintain clean architecture and high-quality code standards.

Frontend Development Intern – InnoverSol Karachi, Pakistan

5 May 2025 - 5 Aug 2025

- Assisted in developing scalable web applications using React.js & Next.js, contributing to production-level modules.
- Worked on Firebase authentication, API integration, and state management under senior developer guidance.
- Collaborated with team members in an agile environment, improving sprint delivery and communication.
- Enhanced UI consistency by creating reusable components and maintaining shared design patterns with Tailwind CSS.

Project Showcase

Amplify Website – Next.js, Tailwind CSS

Designed and developed a clean, responsive landing page assigned as a technical task during my first interview. Completed the project within 3 days, deployed it on Vercel, and shared via GitHub—which directly led to my selection at InnoverSol.

QC Capture Portal – Next.js, Tailwind CSS, shadcn/ui, Firebase, RTK Query

Developed a quality control portal with authentication, middleware, and state management. Integrated Firebase for secure login and data storage. Focused on clean UI, modular architecture, and smooth API handling for real-time updates.

Noetic Adventure Game – React.js, Tailwind CSS, Ant Design, RTK Query, GSAP

Built a gamified, role-based puzzle web app with user and admin panels. Implemented API integration for level management, smooth animations using GSAP, and responsive UI with Ant Design and Tailwind CSS.

Hair Style AI – Next.js, Tailwind CSS

Created an AI-based hairstyle website focusing on responsive design, smooth user experience, and optimized layout using Next.js and Tailwind CSS.

POS Software Landing Page – Next.js, Tailwind CSS, Framer Motion

Developed a modern, responsive landing page for a POS software product. Integrated Framer Motion animations for engaging UI interactions and ensured full cross-device compatibility.

Find Location – React.js, Leaflet, Axios

Built a web app that automatically detects and displays the user’s location on a map using their IP address. Also added functionality to search any IP and instantly view its location. Focused on clean UI and accurate geolocation results through external API integration.

ShopAdminX – React.js, Firebase

Developed an e-commerce admin portal for managing products, users, and orders with real-time data sync using Firebase. Implemented authentication, CRUD operations, and a clean, responsive interface deployed on Netlify.

EDUCATION

Defence Higher Secondary School (ZUEB)

3 July 2025 - Present

Expected Graduation: Dec 2027.

Relevant Subjects: Computer Science.

Activities & Interests: Learning modern frontend development tools (React.js, Next.js, Tailwind CSS) and participating in coding & tech-related activities.

Achievements / Highlights

- Successfully completed a technical assessment project (Amplify Website) and got hired at InnoverSol.
- Built multiple real-world projects integrating APIs, Firebase, and modern UI libraries.
- Recognized for clean, maintainable code and collaborative teamwork during internship.
- Continuously exploring performance optimization and animation techniques in React & Next.js.

Certifications

Web Development — Squad Coders Dev

Completed a comprehensive training program covering modern frontend technologies, including HTML, CSS, JavaScript, and React fundamentals.

Development Tools & Platforms

Tools & Platforms – VS Code, Git & GitHub, Figma, Firebase Console, Vercel, Netlify, Postman

Experienced with modern development tools and deployment platforms to streamline workflow, ensure code quality, and deliver efficient, production-ready web applications.
